GLASS

Glass (tempered glass) is a low-maintenance material for the kitchen. To make the keeping kitchen countertops beautiful requires proper use and regular cleaning. The tips below will help you enjoy your countertop for years to come.

1 DAILY MAINTENANCE

Wipe the kitchen countertop daily with a clean soapy water. Always rinse well with lukewarm water, and dry the kitchen countertop with a dry, clean fiber cloth. Rinsing and drying is essential; it ensures that remaining dirt and any soap and water residue are absorbed.

2 REMOVING SPECIFIC STAINS

Lime stains

(cloudy white or brown spots)
Lime stains can be removed with cleaning vinegar. Rinse well with lukewarm water and dry the top completely. Be careful here with calciferous natural stones such as marble, limestone, etc.

Ink, paint or nicotine

Ink, paint, nicotine or marker stains can be removed with turpentine. Rinse with lukewarm water and dry the sheet well.

3 REMOVE STUBBORN STAINS

You can also treat stubborn stains with a melamine sponge. Moisten it slightly and squeeze it well to get enough friction. Be sure to treat a larger area. Intensive use on a small area can lead to a difference in gloss. This treatment is not for the daily maintenance of your sheet!

Withdrawn spots or stains from ink, paint, nicotine or felt pen can be removed with turpentine. Rinse with lukewarm water and dry the kitchen countertop thoroughly.

Attention:

> Never use hard abrasives such as steel wool/sanding paper/diamond, as these will damage the surface.

Never let liquids dry out. Do not leave fats or foods on the kitchen countertop unnecessarily long.

Always use a trivet near hot objects.

Never cut directly on the kitchen worktop; always use a cutting board.

Never use aggressive cleaners such as paint strippers, brush, metal or oven cleaners, chlorine, sink de-stoppers or other chemicals!

Textured kitchen countertops leave more dirt behind. Rinsing well with clean water and rubbing dry ensures that no dirt remains in the textured surface.
